

CLAIM FOR EXERCISE AS MEDICAL TREATMENT

Please have this form completed if you want to claim compensation for support to perform exercise required as medical treatment under section 16 of the *Safety, Rehabilitation and Compensation Act 1988* (SRC Act). Support to exercise for general health, fitness or psychological wellbeing is not medical treatment under the SRC Act and is not compensable.

Part 1 of this form should be completed by your doctor recommending exercise as medical treatment.

Part 2 of this form should be completed by the doctor or exercise professional (e.g. exercise physiologist) who will prescribe specific exercises to meet your clinical needs.

Physiotherapists can recommend exercise they will supervise as medical treatment by submitting a Comcare Treatment Notification Plan or Review Treatment Plan form.

The employee claiming compensation must sign the authorisation at the bottom of this form.

All questions must be answered for this plan to be considered. Please use block letters and attach any information that may be relevant.

Your Claims Services Officer will determine if Comcare is liable to pay compensation for exercise as medical treatment after considering the available medical evidence.

Under the SRC Act, Comcare can accept liability for exercise that is:

- > therapeutic medical treatment undertaken for the purpose of alleviating an injury
- > obtained in relation to a compensable condition
- > obtained at the direction of a legally qualified medical practitioner (LQMP) or under the supervision of a registered physiotherapist, osteopath or chiropractor
- > reasonable for the employee to obtain in the circumstances, and
- > appropriate in cost.
